Beyond Tinkering: Change the Story; Change the Future

Every transformational social movement is also a spiritual movement beginning with conversations that challenge a prevailing cultural story. **WE NEED A NEW STORY.** The civil rights movement changed the story on race. The environmental movement changed the story about the human relationship to nature. The women's movement changed the story on gender. Our current task is to change the story about the nature of wealth, the purpose of the economy and our human nature.

David Korten will explore possibilities for a new story.
